

## **LIMITATIONS OF THE TEST AS PROVIDED BY MANUFACTURER**

1. This drug test (“device”) is for forensic use, and should be only used for the qualitative detection of drug of abuse in oral fluid.
2. This assay provides a preliminary analytical test result only. A more specific alternative chemical method must be used in order to obtain a confirmed analytical result. Gas chromatography/mass spectrometry (GC/MS) has been established as the preferred confirmatory method by the National Institute on Drug Abuse (NIDA). Clinical consideration and professional judgment should be applied to any test result, particularly when preliminary positive results are indicated.
3. There is a possibility that technical or procedural errors as well as other substances and factors may interfere with the test and cause false results.
4. A positive result indicates the presence of a drug/metabolite only, and does not indicate or measure intoxication.
5. A negative result does not at any time rule out the presence of drugs/metabolites in urine, as they may be present below the minimum detection level of the test.
6. This test does not distinguish between drugs of abuse and certain medications.

## **ADDITIONAL LEGAL DISCLAIMER**

In making this drug test (“device”) available at no cost to you to use at your own direction, Operation UNITE and Appalachia HIDTA, their affiliates, partners, owners, employees, and suppliers (collectively “UNITE and HIDTA”) assume no responsibility for consequences resulting from its use. UNITE and HIDTA specifically disclaim any liability, whether based in contract, tort, strict liability or otherwise, for any direct, indirect, incidental, consequential or special damages arising out of in any way connected with access to or use of the device. We assume no responsibility for problems or accidents arising from the use of the device in violation of state laws. No rights or claims can be derived from (the use of) this device. Use of device is at your own risk. A 100% guarantee of accuracy cannot be given nor assured.

Actual device packaging and materials may contain more and/or different information than provided by UNITE and HIDTA. We recommend that you do not solely rely on the information presented and that you always read labels, warnings, and directions before using a device. For additional information about the device, please contact the manufacturer. Any content provided by UNITE and HIDTA is for reference purposes and is not intended to substitute for advice given by a physician, pharmacist, or other licensed health-care professional. You should not use this information as self-diagnosis or for treating a health problem or disease. Contact your health-care provider immediately if you suspect that you have a medical problem.
