UNITE Logo Options for Coalitions

The item being purchased through UNITE Coalition Action Plan funding will determine what space is available for the required UNITE branding. Whenever possible, the preferred logo option should be used.

Below are the preferred and other acceptable options. For a high-resolution image of the UNITE logo (in either color or black-and-white versions), contact Communications Director Dale Morton at dmorton@centertech.com or 606-271-0624. Please specify what format printer would like the logo sent as – eps, png, jpg or pdf.

Remember: A final design proof must be submitted for approval before the order is placed.
